(first half on the previous lesson)

**Sourcing--**

Have a student on the overhead display the following:

- Circle who wrote the ordinance...
- Underline twice when the document was written
- Put a box around the area that gives a general purpose for **why** the document was written

**Contextualization—**

Outline the areas that the document mentions and then discuss the physical features inside—give each student a piece of paper and have them answer the question:

**What environmental promises did this land hold for the United States?**

Each student should then ball up their idea and do a round of tosses where students read others ideas—after a few rounds, come up with a class consensus to the answer of the question.
